

**Conditions for admission to the bachelor's study programme
Animal Protection and Welfare in English language
at the Faculty of Veterinary Hygiene and Ecology of the University
of Veterinary Sciences Brno for the academic year 2023/2024**

According to § 49 of the Act no. 111/1998 Coll., on Higher Education Institutions and on the Amendment and Supplement to Some Other Acts (the Higher Education Act), the Faculty of Veterinary Hygiene and Ecology of the University of Veterinary Sciences Brno (UVS Brno) publishes the conditions for the admission to studies in the bachelor's study programme Animal Protection and Welfare for the academic year 2023/2024.

Conditions for admission to the studies are:

- proper completion of full secondary education according to § 48 sect. 1 of the Act no. 111/1998 Coll., on Higher Education Institutions and on the Amendment and Supplement to Some Other Acts (the Higher Education Act), which the applicant submits by an officially verified document issued by the school departments of the regional authorities to the study department of the faculty,
- confirmation of the applicant's health fitness for study in a written form (a medical certificate). This confirmation must be certified by a physician – a provider in the field of general practical medicine or practical medicine for children and adolescents (Appendix No. 1),
- the application to study and related appendices (in electronic form) have to be submitted the latest by the date April 30, 2023. In case the capacity of the study program is not fulfilled by the first term, the dean may announce another submission of applications for study. Deadline for the second round of application submitting is August 15, 2023.

The Faculty of Veterinary Hygiene and Ecology UVS Brno is setting according to § 49 sect. 1 of the Act no. 111/1998 Coll., on Higher Education Institutions and on the Amendment and Supplement to Some Other Acts (the Higher Education Act) these further conditions for admission to studies:

- the result from secondary school, which is evaluated using points according to the secondary education school report for the 1st, 2nd, 3rd (final report) and 4th year of study (semi-annual report), for multi-year high schools, the result for the last 4 is evaluated similarly years of study. The results from secondary school must be documented by scanned copies of the report card in the e-application.
- the admission procedure will be carried out in English language.

For the academic year 2023/2024, the highest possible number of accepted students to the first year of study is determined at 24. The applicant can not be admitted to the study programme of the Faculty of Veterinary Hygiene and Ecology if he/she is already studying in this study programme. Admission to studies shall be decided on the basis of the order of the total number of points obtained within the admission procedure.

UNIVERSITY OF VETERINARY SCIENCES BRNO
FACULTY OF VETERINARY HYGIENE AND ECOLOGY

If the number of applicants who fulfilled conditions laid down for admission to studies will be less than 5, the study programme will not be opened. If the capacity of study programme is not fulfilled, the dean can announce alternative term of the entrance examinations no later than 15 days before this date.

The decision will be issued in writing form within 30 days from the verification of fulfilment of conditions for admission. Applicant may request a review of the decision within 30 days of its delivery. The applicant has the right to access the file at the faculty study department after notification of the decision.
